

Summit, our students, and our young artists have been through so much this year. We've all had to make it up as we go along.

And on 02/27, it's time to celebrate with some improv comedy and incredible (virtual) performances to benefit the Summit Performing Arts Resource Committee and the students of Summit who receive funding from it.

Here's what you get in one jam-packed (and 90 minute-ish) night with your streaming ticket:

- songs made up about you, our town, and our students performed by award-winning comic and musician, Rob Schiffmann
- performances by students from each of the elementary schools, middle schools, and Summit High
- an extemporaneous speech from an award-winning orator (from Summit High) based on your suggestions
- a special message and performance from a secret Broadway star!

Ticket upgrades available that include SPARC'ling wine, cheese, and all kinds of delicious upgrades to support our local businesses as well.
